

ADERDOUR NAJAT

Data Engineer – Big Data & AI

Final-Year Engineering Student – Data Science, Big Data & AI – Seeking a Graduation Internship (PFE)

Casablanca +2126 43 86 16 87 aderdour.najat1@gmail.com linkedin.com/in/najat-aderdour github.com/aderdournajat

PROFILE

Final-year engineering student in Data Science, Big Data & AI, currently seeking a graduation internship (PFE). Experience in Data Engineering and Machine Learning, as well as web and mobile development. Strong interest in data engineering, MLOps, and deploying AI models to production.

EDUCATION

Engineering Degree – Data Science, Big Data & AI	2024 – 2027
National School of Artificial Intelligence and Data Science, Taroudant	
Professional Bachelor's Degree – Software and IT Systems Engineering	2023 – 2024
Higher School of Technology, Essaouira	
University Diploma of Technology – Computer Engineering	2021 – 2023
Higher School of Technology, Essaouira	

PROFESSIONAL EXPERIENCE

Data Engineer & Machine Learning Engineer Intern Banque Centrale Populaire (BCP), Casablanca – Data Engineering, Data Mining & Delivery Department	Year-End Project Internship (PFA) 07/07/2026 – 07/09/2026
Data Engineering (Big Data): designed and deployed a Big Data pipeline under a Medallion architecture (Bronze/Silver/Gold) using Apache NiFi, HDFS and PySpark, to process and aggregate data for 3.15 million customers. Machine Learning: feature engineering, training and tuning of a predictive scoring model (eligibility for savings products) at scale. Orchestration & BI: automated and scheduled data and inference pipelines via Apache Airflow, and built a Power BI dashboard to support commercial targeting.	
Data Analyst Intern – BI & OCR – UNICASPORT, Casablanca	Year-End Project Internship (PFA) 01/07/2025 – 30/08/2025
Business Intelligence: built a sales analysis dashboard (automated Excel data analysis, KPIs, interactive visualizations). OCR: developed an advanced OCR module for extracting text and tables from PDFs and images, integrated into a web application.	
Web Developer – WEBEXAG, Casablanca	End-of-Year Internship 22/04/2024 – 30/05/2024
Platform for creating portfolios, resumes and business cards (Laravel, HTML/CSS).	
Mobile Developer – Développeur-Informatique.ma, Agadir	End-of-Year Internship 15/04/2023 – 30/05/2023
Cross-platform e-commerce mobile application (Flutter/Dart).	
Android Mobile Developer – SUPTECHNIQUE S.A.R.L, Agadir	Introductory Internship 13/07/2022 – 26/08/2022
E-commerce mobile application on Android (Java, MySQL).	

TECHNICAL SKILLS

Programming	Python, Java, C, C++, SQL
ML / AI / Vision	Scikit-learn, TensorFlow, PyTorch, OpenCV
Big Data	Hadoop, HDFS, Apache Hive, YARN, Apache Spark, PySpark
Orchestration & MLOps	Apache Airflow, Apache NiFi, Apache Hive, ETL/ELT, MLflow
Streaming & Search	Elasticsearch, Logstash, Kibana (ELK), Kafka, Spark Streaming
Cloud & Infrastructure	AWS (EC2, S3, Lambda), Docker, Linux
BI & Analytics	Power BI, Multidimensional modeling, OLAP, Decision support systems
Tools	Git, GitHub, VS Code, UML

ACADEMIC PROJECTS (ENSIASD)

Personal Data Detection & Protection in Logs – DLP & Lineage Architecture
Medallion architecture for detecting personally identifiable information (PII), ensuring GDPR/CCPA compliance – Elasticsearch, Logstash, Kibana, Spark Streaming.
Image Captioning – CNN + RNN/LSTM & Transformer
Automatic image caption generation on Flickr8k – Python, PyTorch, ResNet-50, LSTM, Transformer.
Anomaly Detection in Water Quality
Anomaly detection (Isolation Forest, LOF, One-Class SVM) and supervised classification (SVM, Random Forest, XGBoost) – Python, Scikit-learn, SMOTE.

CERTIFICATIONS

SQL (Advanced) – HackerRank View certificate	Sep 2026
Big Data Fundamentals with PySpark – DataCamp View certificate	Aug 2026
